- General Guidelines
- Reasons for Reallocation
- Approach to Reallocation
- Timeline
- Using Self Service Banner to Reallocate Budgets
- Reallocation Tips and Tricks

General Guidelines

Each year, departments are given the opportunity to reallocate operating budgets.

Operating budgets are those:

- in Fund 110002 (Unrestricted Operating)

- within 7XXXXX accounts

NOT included in this process:

- Budget reallocation for labor (salaries and benefits). No updates to student salaries and temporary on-call budgets can be made as part of this process
- Any additional funds awarded
- Approved roll forward funds

All accounts that do not qualify for this process will be set up by the FP&A (Budget) Office.

Reasons for Reallocation

- Budget resources are allocated where a division and/or department (organization) needs them
- Optimizes reporting from Banner by providing accurate information to enable budget owners to:
 - accurately track budget vs actual results
 - identify potential risks to achieving budgets and/or financial opportunities throughout the financial year
 - easily identify if a transaction may have been recorded incorrectly
 - access more accurate information in Banner to minimize or eliminate the need for ad-hoc and "shadow" budget reporting and analysis
- Reallocation encourages budget owners to gain a greater understanding of their division and/or department(s) prior and current trends and future needs

Approach to Reallocation

- Budget Owners should perform the following:
 - Review prior financial year and current financial year actuals to understand any trends by account line
 - Meet with your divisional head/departmental chair to determine any future needs which will need to be supported by budget reallocations
 - Use data analysis and department head input to determine approach to reallocation
 - Ensure submitted changes <u>balance</u> and net to zero at the organization or division level
- The FP&A (Budget) Office is ready to assist with these tasks. Please reach out if you would like assistance.

Return To Top

- 1. Double check changes and make certain that cumulative change equals zero
- 2. Post the changes
- 3. If more changes are needed after posting, simply start the process again (calculations will begin using the new proposed budget)
