 - Let Addi know about other ideas you have!
 - Misbah: \$25
 - Glorie: \$18, reason you can't tip is because they are paid the amount. Students don't have time for full time work - \$18 makes up for that
 - Pumé: We need to learn how to be properly compensated at college. How will we be able to navigate post-grad?
 - Doré: \$14-18 hourly for staff - need to push for compensation for the staff as well, alongside students
 - Misbah: Both raised!

- Addi: There another compensation committee for staff and faculty - working for that. Staff not making a living wage. Make sure our students can live
- Glorie: Students also want to get paid. Another important rationale: Want students to do a good job at CC - PAY!
- Misbah: If you don't want us to work for the college, connect us to resources/outside resources. Can't have internships that are long term - Bonner - paid through the school. Inside Out - paid more and vacation time. Expand time off and sick leave. First step is getting a living wage
